BIO

The Jackals is a Belgrade-based hard techno duo formed by producer still17. Their sound blends fast, raw European hard techno with industrial and rave energy — made for peak-time floors.

Both artists bring experience from previous projects with millions of streams, and their debut single We Got A Power quickly passed 300k+ plays, setting the direction for their high-intensity style.

Now the duo continues shaping their signature sound across originals, edits, and remixes released on Spotify, YouTube, and SoundCloud — building momentum and a growing worldwide audience.

Based in Belgrade, available for **worldwide** bookings.
